### **Old Tax Records**

**by Ruth Lambert**

The County Clerk's office maintains old tax records organized by the legal parcel description. These records are on microfisch in the Clerk's office. These records list taxes paid on parcels. You will need to look up the parcel to determine who paid taxes on the property. The taxpayer may have been the property owner, but this is not always the case. These records can be useful when researching the Grantor/Grantee records.
